

Section 10-7-5 Construction and Related Activities ^{522 561}

- A. It is unlawful for any person to operate or permit to be operated any pile driver, power shovel, rotary drill or auger, loader, pneumatic or hydraulic hammer, or bulldozer, in any building, construction, demolition, land clearing, excavation or similar outside construction, between sunset and sunrise, and on all Saturdays, Sundays and legal holidays.

- B. It is unlawful for any person to operate or permit to be operated any device in any building, construction, demolition, land clearing, excavation or similar outside construction, alteration, or repair work on any buildings, structures or projects, between sunset and sunrise, and on all Sundays and legal holidays, if the noise level created exceeds 45 db(a) measured at the nearest residential or commercial property line.
